EDUCATION

- 2017 - Present
Canberra, Australia | **Australian National University, M.A.**
[Master of Environmental Management and Development](#)
- 2013 – 2017
Ithaca, USA | **Cornell University, B.S. *cum laude***
[Science of Natural and Environmental Systems Major](#)
[International Agriculture and Rural Development Major](#)

RELEVANT EXPERIENCE

- Fall & Spring 2016
Ithaca, USA | **SRI-Rice Int. Network and Resources Center**
[Web Statistician, Curator](#)
Curated Indonesian research on the Systems of Rice Intensification (SRI) and tracked SRI-Rice web statistics. Was responsible for website analysis, optimization, and social media tracking. Wrote monthly reports on web-statistics. Expanded SRI's Zotero database of global research collection.
- Winter, Spring, & Summer 2015
Wazuka, Japan | **Kyoto Obubu Tea Farms**
[International Department Co-manager, Web Developer](#)
Rebranded and created a new international website for the company. Developed social media, video and marketing campaigns. Coordinated tea tours, demonstrations, and events for over 500+ domestic and international guests. Conducted agriculture workshops for horticulture students from universities worldwide. Harvested, fertilized, and pruned tea fields. Reorganized network file system. Managed intern activities.
- Fall 2014
Ithaca, USA | **American Institute for Indonesian Studies**
[Manuscript Editor](#)
Assisted Dr. Herman Hidayat, Forest Policy Researcher at the Indonesian Institute of Science, in editing his 250+ page manuscript on political ecology revolving around plantation forestry management and the Soeharto regime. Major topics included: the political ecology of forest resources management, the environmental impact on forest degradation, community based management and forest management practices during the Soeharto regime and the reformation era.
- Summer 2014
Libreville, Gabon | **FAO United Nations**
[Conservation Agriculture Intern](#)
Analyzed and evaluated the adoption of conservation agriculture practices of several cooperatives spanning three villages to strengthen sustainable banana production and food security within the Remboue region in Gabon, Central Africa. Interviewed over 15+ farmers. Sections of final report will be used by the FAO and presented to the Ministry of Agriculture in Gabon.
- Spring & Summer 2014
Ithaca, USA | **Ecoagriculture Partners**
[Landscapes Asia Review – Team Member](#)
Scoped and identified over 75 different integrated landscape management initiatives, with a focus on Indonesia. Contacted project managers and international organizations regarding their in-country activities. Collected and analyzed survey data on initiatives.
